AVE EUROPA

... is a new **Pan-european** federalist political movement, operating across 30+ countries.

It aims to reform the EU into a stronger, more democratic **European Federation.**

It advocates for a **stronger**, more **strategically autonomous** European Union, grounded in the **rule of law**, and a **pragmatic approach to migration and defence**.

AVE EUROPA

OUR CORE GOALS

A sovereign Europe — united and able to defend itself, secure its borders, and protect our democracy without relying on others.

A competitive Europe — with one true single market that powers innovation, industry, and prosperity across the continent.

A confident European identity — rooted in our culture and determined to protect our European ways of life.

AVE EUROPA

POLICY

Unification: the creation of a European civilisation-state and a genuine European federation.

Repatriation: reasserting Europe’s authority by strictly enforcing the return of every individual without a legal right to remain – including criminal offenders – consistently, decisively, and without any exception.

Reindustrialisation: strengthening Europe's economic foundations through a common framework — including a "28th regime" — and the construction of a truly unified single market.

Civilisation and sovereignty: recognising that European civilisation is worth defending, and ensuring Europe possesses the sovereignty to do so. Europe has to stay European.

Remilitarisation: building a genuine European defence — a common military framework with joint command, control, communications, and intelligence, ensuring Europe can defend itself and act in the world on its own terms.

In sum, we stand for European sovereignty, the preservation of European civilisation, a unified common market, and the principles of unification, reindustrialisation, civilisation, and remilitarisation.

2026
2027

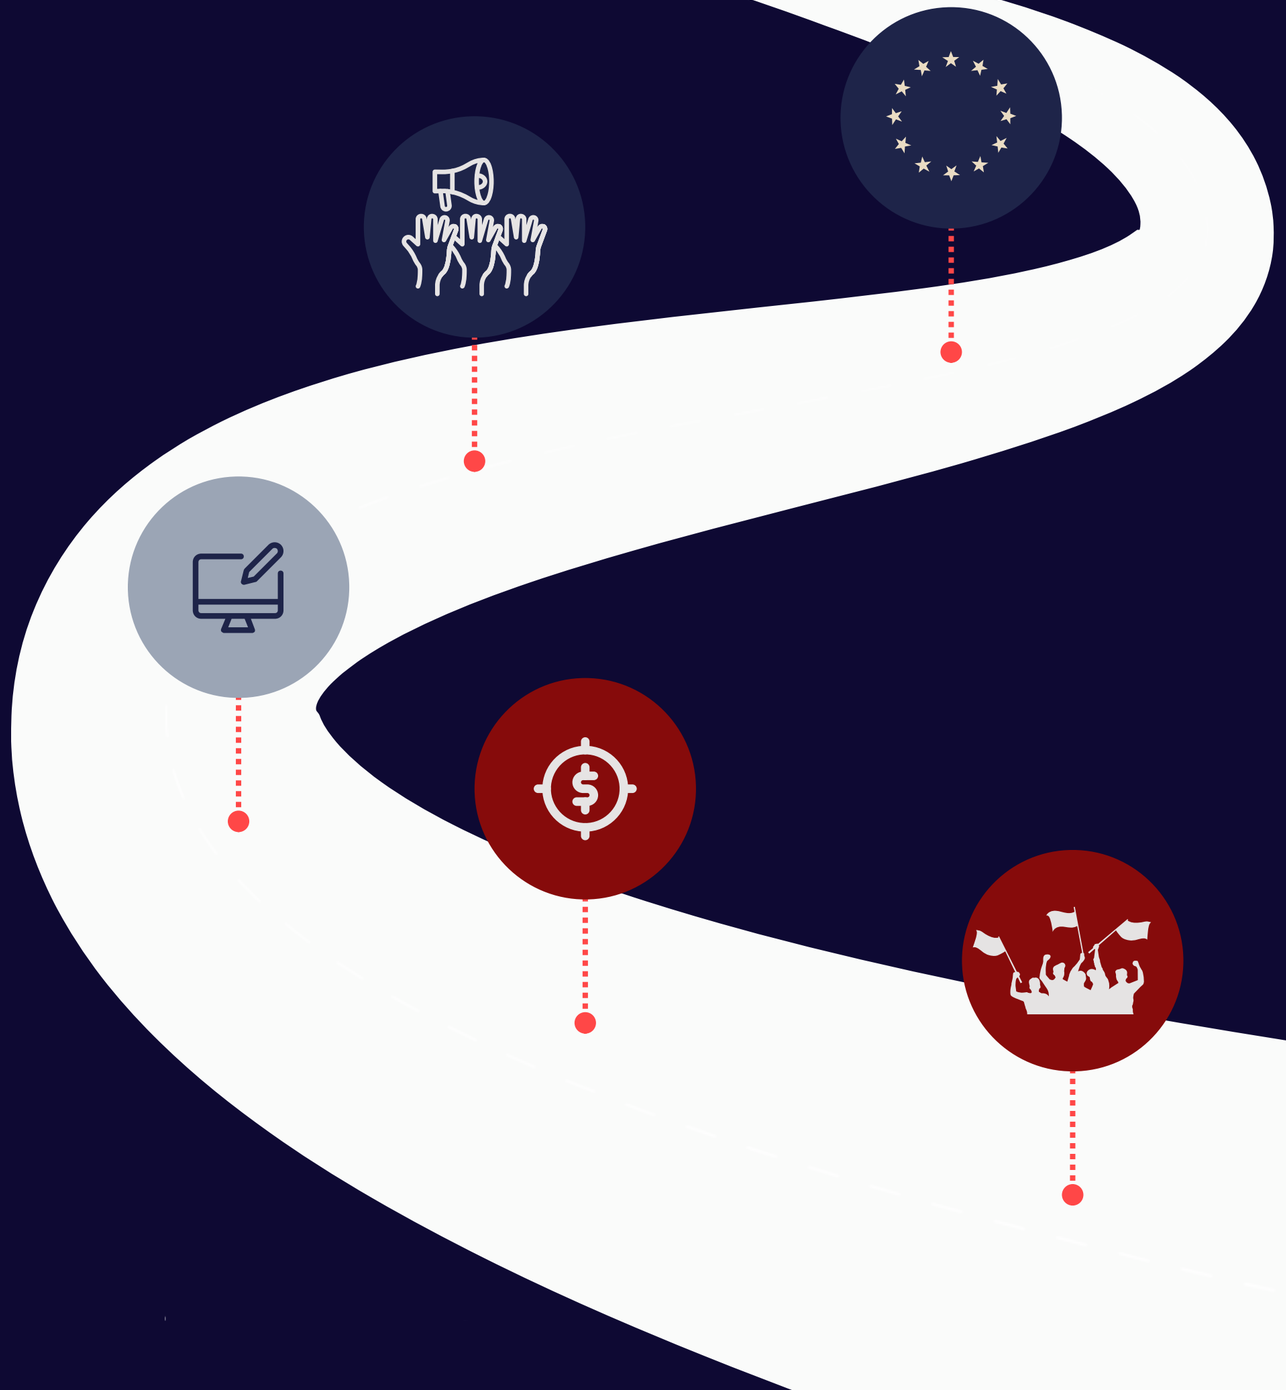

Registration of Political Parties
To not only put pressure on existing policy makers but also shape policy ourselves, we will launch political parties under the Ave Europa brand.

2027

First Regional and National Elections
To establish ourselves on the political landscape we will start running in elections.

2029

European Parliament Elections 2029
To achieve our vision of an European Federation, we will challange the establishment in as many European states as possible in the European Elections 2029.
